YOU CAN BE ASSURED THAT WE WILL TAKE THE TIME
TO UNDERSTAND YOUR SPECIFIC BUSINESS NEEDS AND
DEVISE A TAILORED SOLUTION WHICH WILL ENHANCE YOUR
PRODUCTIVITY AND HELP YOU GET YOUR WORK DONE FASTER

We understand the challenges you face, such as the need to:

Meet PCI DSS requirements and
protect credit card and other
personal information

Support security cameras, key systems,
and other operational systems

Segment your network to separate
guest access from staff access

Meet strict deadlines during
peak seasons

You need to be free to “wow” your guests, not be tied up taking care of the endless cycle of attracting, training, and retaining technical staff to manage your IT environment. We provide comprehensive IT support for hotels and restaurants that can take all that off your plate. We can handle virtualization, PCI compliance, reservations support, lobby and in-room Wi-Fi, and much more. Count on us to maximize efficiency so that you can focus on taking care of your guests.

ABOUT US

We're experts at network bandwidth, voice communications (VoIP), wireless Internet support, applications support and customer service. We server your guests as an extension of your team, with the same level of dedication and professionalism.
